Enterprise Process Modeler

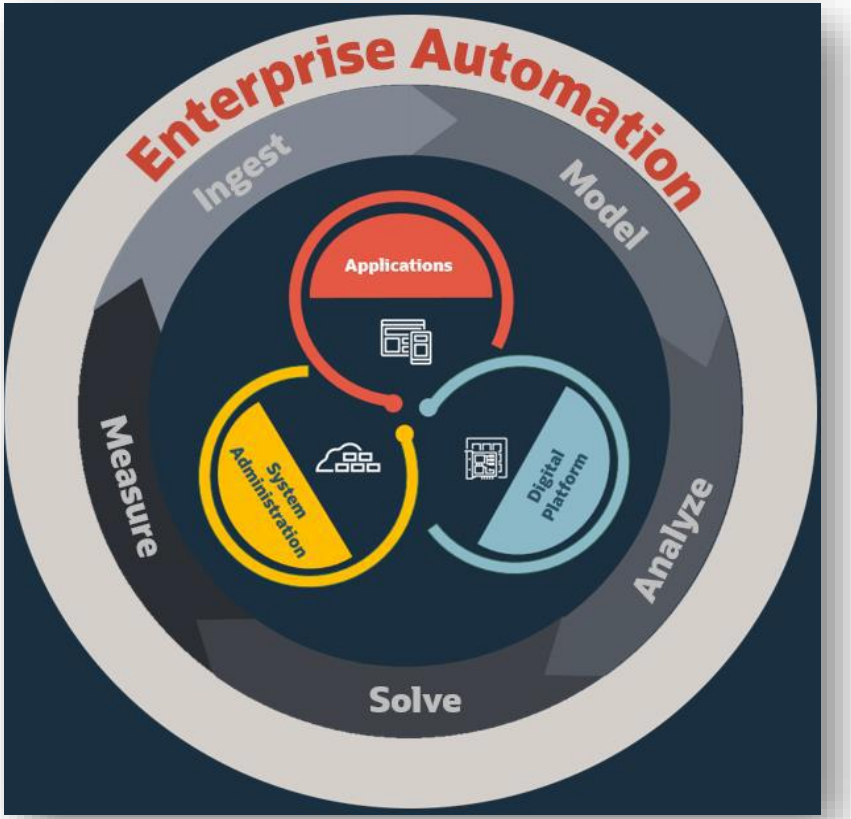
Enterprise Automation

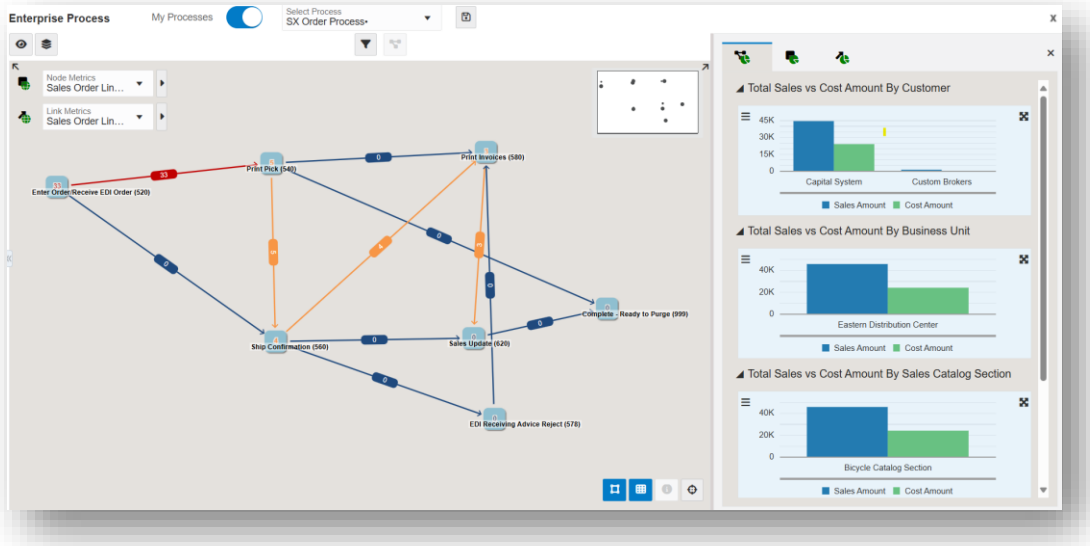
+ Ingest
+ **Model**
+ Analyze
+ Solve
+ Measure



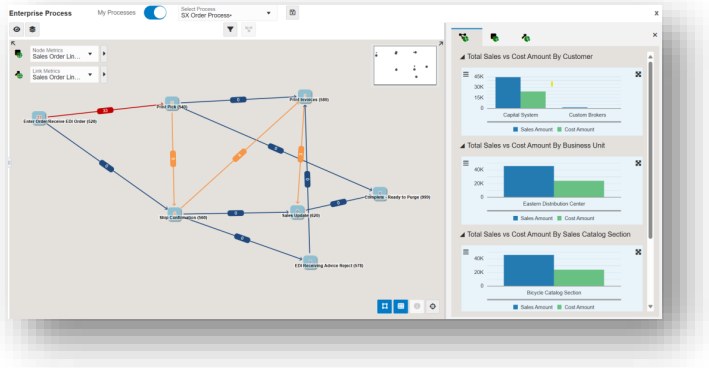
Enterprise Process Modeler

What is it?

- Tools Release 9.2.9
- Visualization of order process progress based on predefined templates & Order Activity Rules
- Generates Metrics and Key Process Indicators (KPIs)



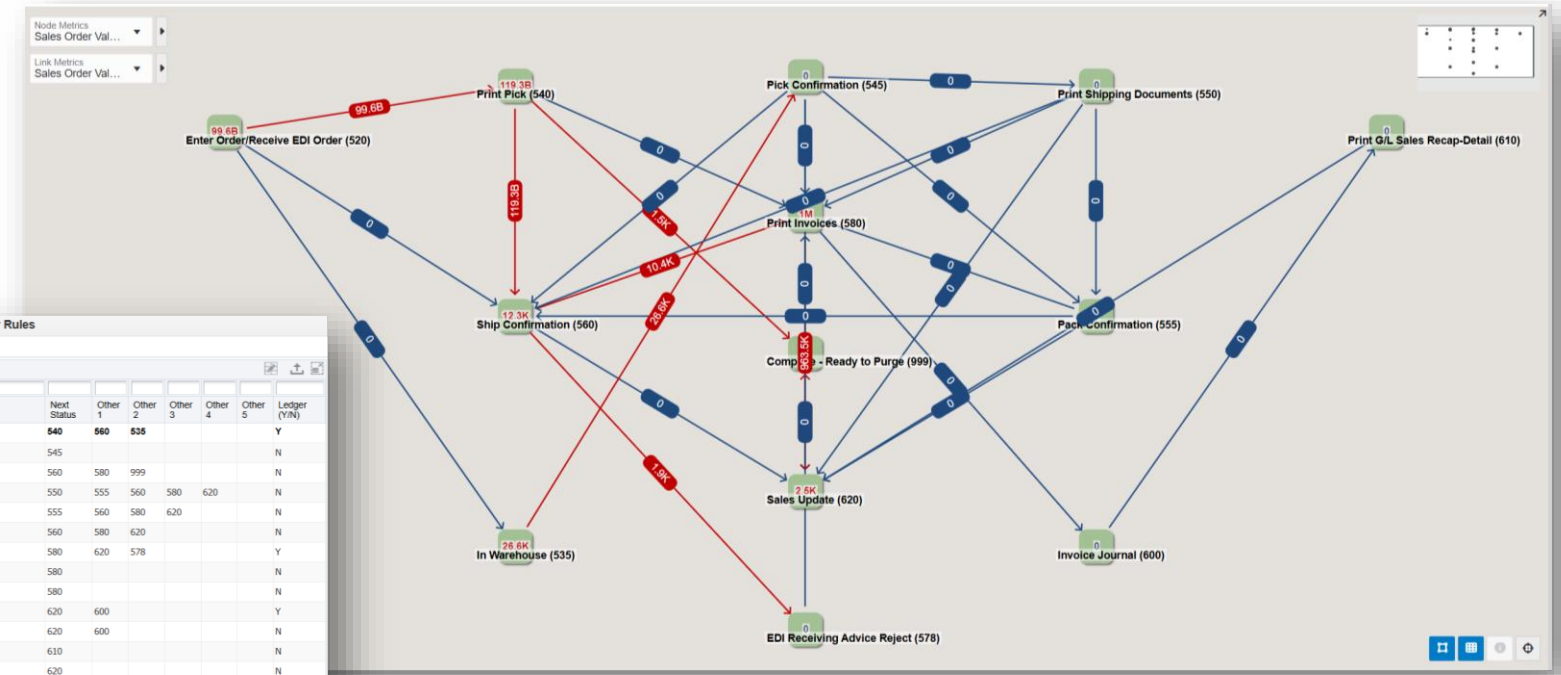
Enterprise Process Modeler



How does it work?

- Creates a visual flowchart of a process based on order type and line type parameters using predefined templates
- Uses E1 data to showcase the progress of a process over a specified period of time
- Adapts the visualization based on setup and filter values
- Generates KPI charts
- Ability to choose between the Order to Cash and the Procure to Pay process templates

Enterprise Process Modeler



Order Activity Rules - Work With Order Activity Rules

Records 1 - 15

Order Type	Line Type	Last Status	Description	Next Status	Other 1	Other 2	Other 3	Other 4	Other 5	Ledger (Y/N)
SO	S	520	Enter Sales Order	540	560	535				Y
