# JD EDWARDS NORDIC CONFERENCE 2025

---

September 30, 2025  
Tuesday, 09:00 AM

---

Hotel Jacy'z, Gothenburg, Sweden

# Our Story for Today

Yoyodyne Propulsion Systems.

# JD Edwards System

Christian Fronteras – Inventor & CTO

*The Future Begins Tomorrow!*

## YPS Company Background

**Flagship Product – Oscillating Overthruster**

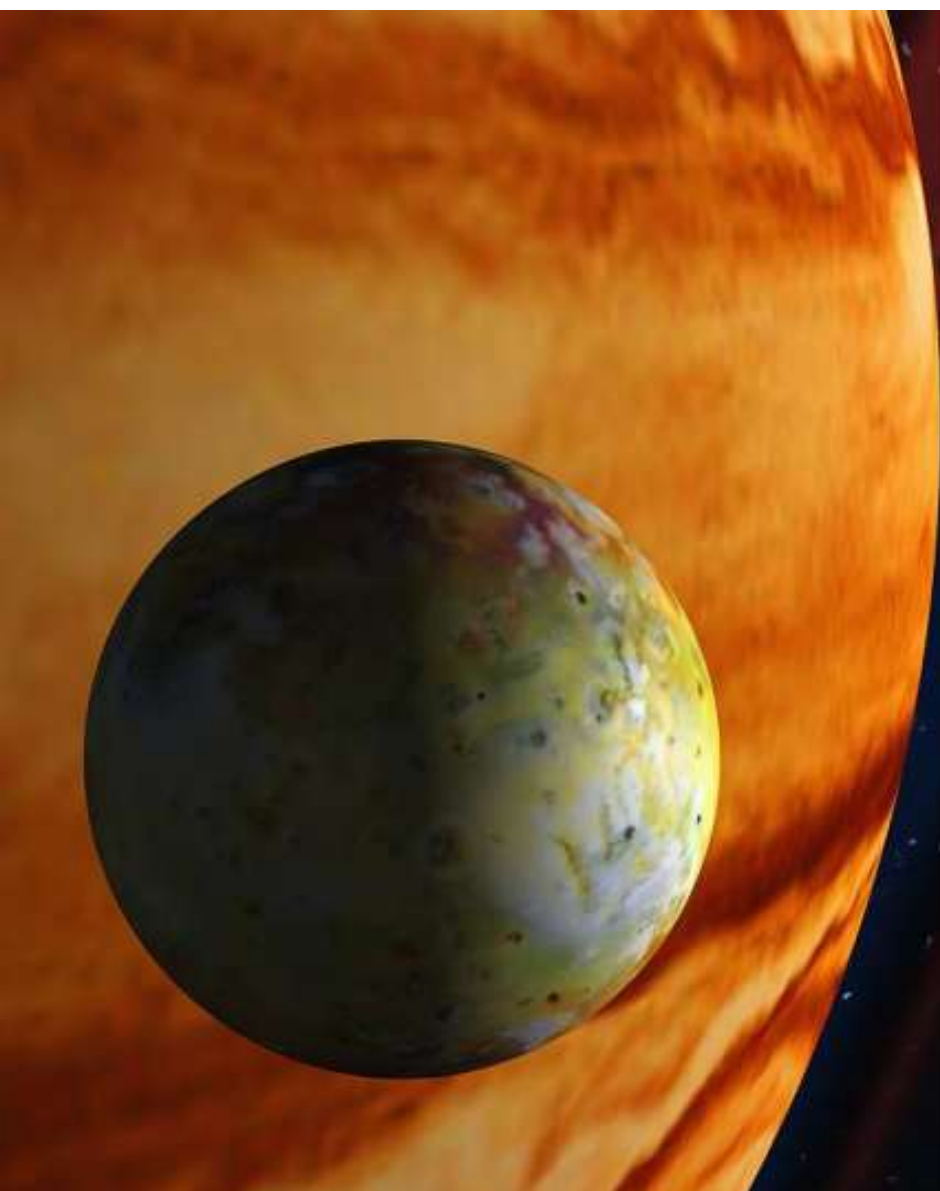

- London HQ - UK
- Founded in 1969
- 5500 employees (2024)
- Revenue \$5B annually (2024)
- Six facilities on two continents

Europe

North America

Newly acquired medical division

**“Where the Future Begins Tomorrow”**

YPS JD Edwards ERP System

## JD Edwards at YPS Today

- EnterpriseOne 9.2, Update 2 (Tools Release 9.2.5.4)
- Running separate instances in EMEA and USA
- Running JD Edwards on on-premises (IBM iSeries & Wintel) hardware
- 1,500 named users (400 concurrent)
- YPS uses JD Edwards Financials, Manufacturing and Distribution.
- No real engagement with Oracle since 2020
- Integrations with 3PL and customer ordering portal
- Some level of custom code

## Challenges with Current JD Edward System

### Business Needs

- Business acquisitions are difficult as current on-prem infrastructure is maxed out
- Pressure to reduce resources but many processes are inefficient / manual
- Greater demand for 24X7 processing / Zero downtime
- Growing need to support supplier & customer system integration
- YPS is committed to being CO2 NetZero by 2028 and needs to start collect ESG data
- **Empower Business Analysts** to manage better UI requirements and build efficiencies
- Salesforce not currently integrated with JD Edwards
- Standardize current Integration process and plan for scale
- CEO keen to embrace AI
- Need to get light apps onto workforce mobile-phone for employee expenses

### System Environment

- Current Operating systems need to be updated
- Lacking recently tested disaster recovery plan

# JD Edwards Product Roadmap

**Automate. Optimize. Transform.**

Mark Herwege

Senior Solution Engineer

JD Edwards

Premier Support is available through

**AT LEAST 2036**

*Rolling 10 year window*

**Reinforcing Oracle's Applications  
Unlimited commitment to customers  
and continuous product innovation**

Premier Support provides access to product updates and enhancements, as well as technical assistance and support resources to help you maintain your on-premises Oracle Applications

**Sustaining Support is available INDEFINITELY!**

# Cultivating a Thriving JD Edwards Ecosystem

# Our Customers' Success Matters!

Relentlessly **Improving** and **Innovating** with JD Edwards

## EnterpriseOne Releases

**30+** EnterpriseOne 9.2 releases  
**110+** features added in the last year

## EnterpriseOne Enhancements

**860+** new enhancements in  
EnterpriseOne 9.2 since 2015

## JD Edwards Customers on Oracle Cloud

**425+** JDE customers with Hybrid  
Cloud **335+** customers on OCI

## JD Edwards Orchestrator

**1,000+** customers using  
JD Edwards Orchestrator

## The JD Edwards Ecosystem

**150,000+** LearnJDE visits (last 12 months)  
**3,500+** JDE Connection Podcast downloads

## Go Lives/Successes

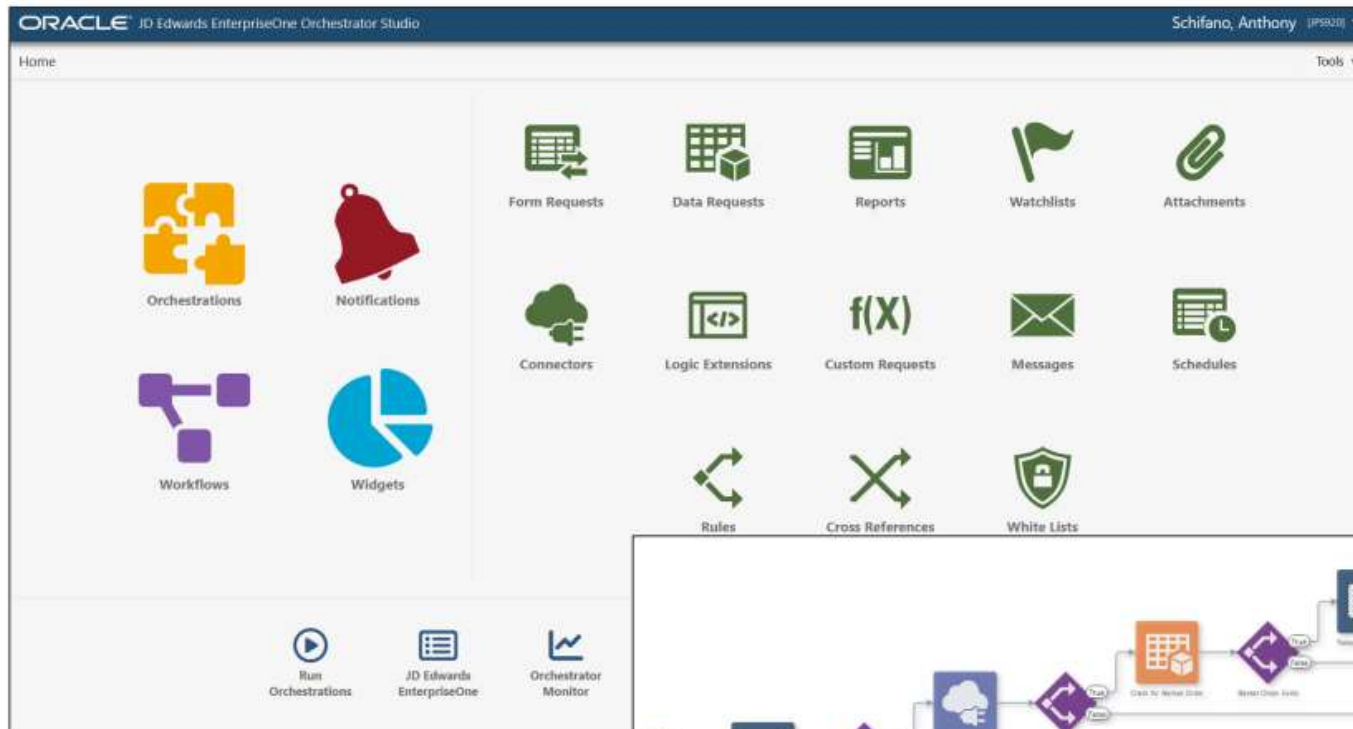

**1,000+** go lives/upgrades  
**425+** customer success stories

**Are you using JD Edwards like  
2005 rather than 2025?**

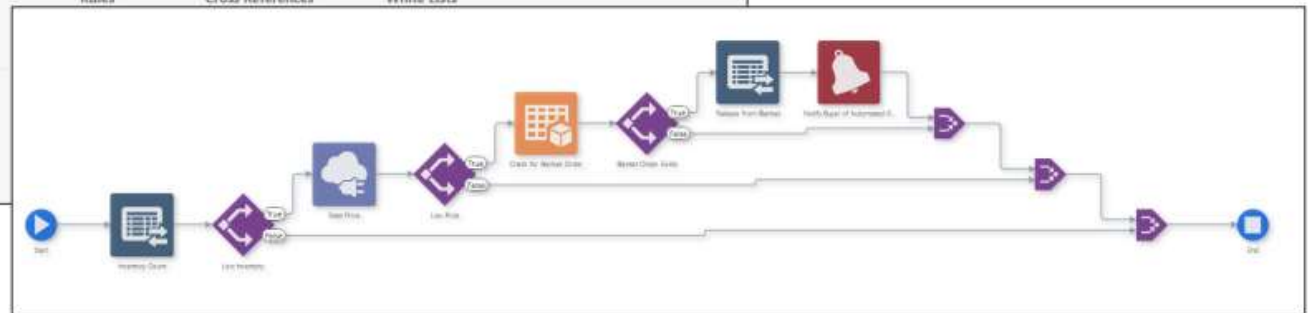

**2005**

# You might be running JDE like it is 2005 if...

You've never  
seen this  
before!

# You might be running JDE like it is 2005 if...

# WE'VE UPGRADED

WE'RE ON CLOUD – NOW WHAT?

PUBLIC CLOUD

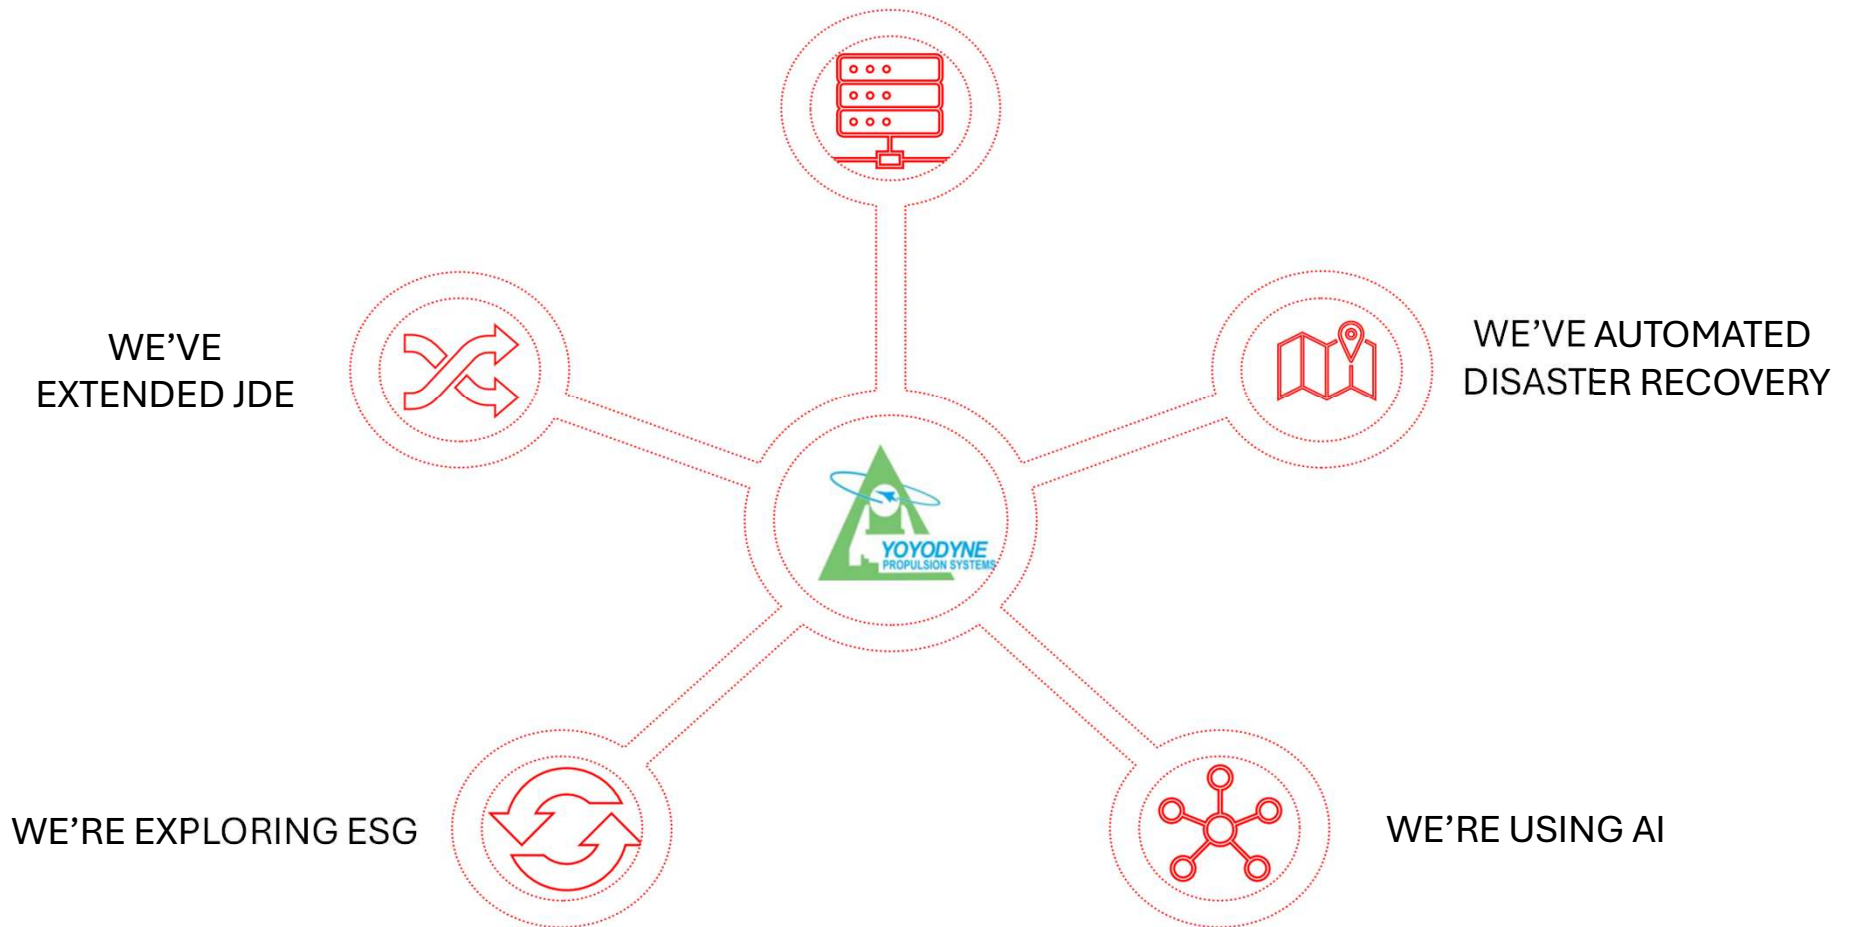

# WE'VE UPGRADED

WE'RE ON CLOUD – NOW WHAT?

## OCI Region Strategy – The Balance of HA, DR and Price

### Two Regions

#### Pros:

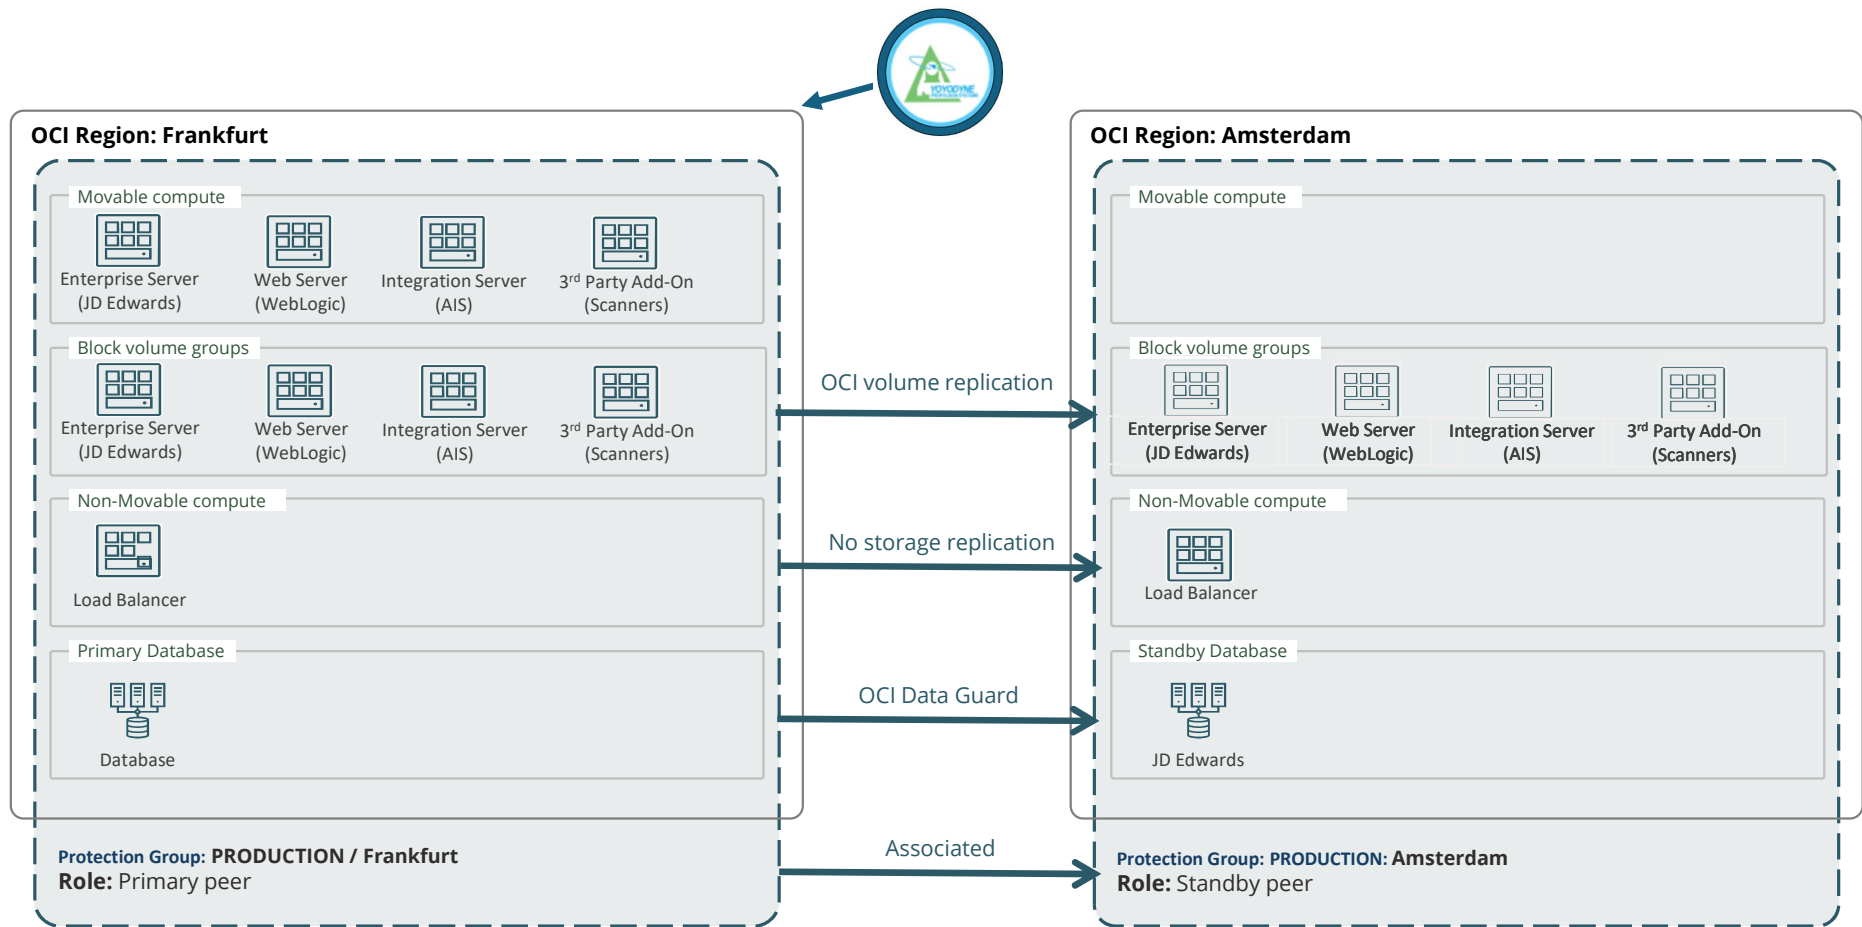

- Only choice for DR. Inter-region DR is HA, not DR.
- Full independence between regions.
- No site distance limitation.
- Less disruptive invocation.
- Full flexibility for site selection.
- Supported by 'Full Step Recovery' – Oracle DR Automation.

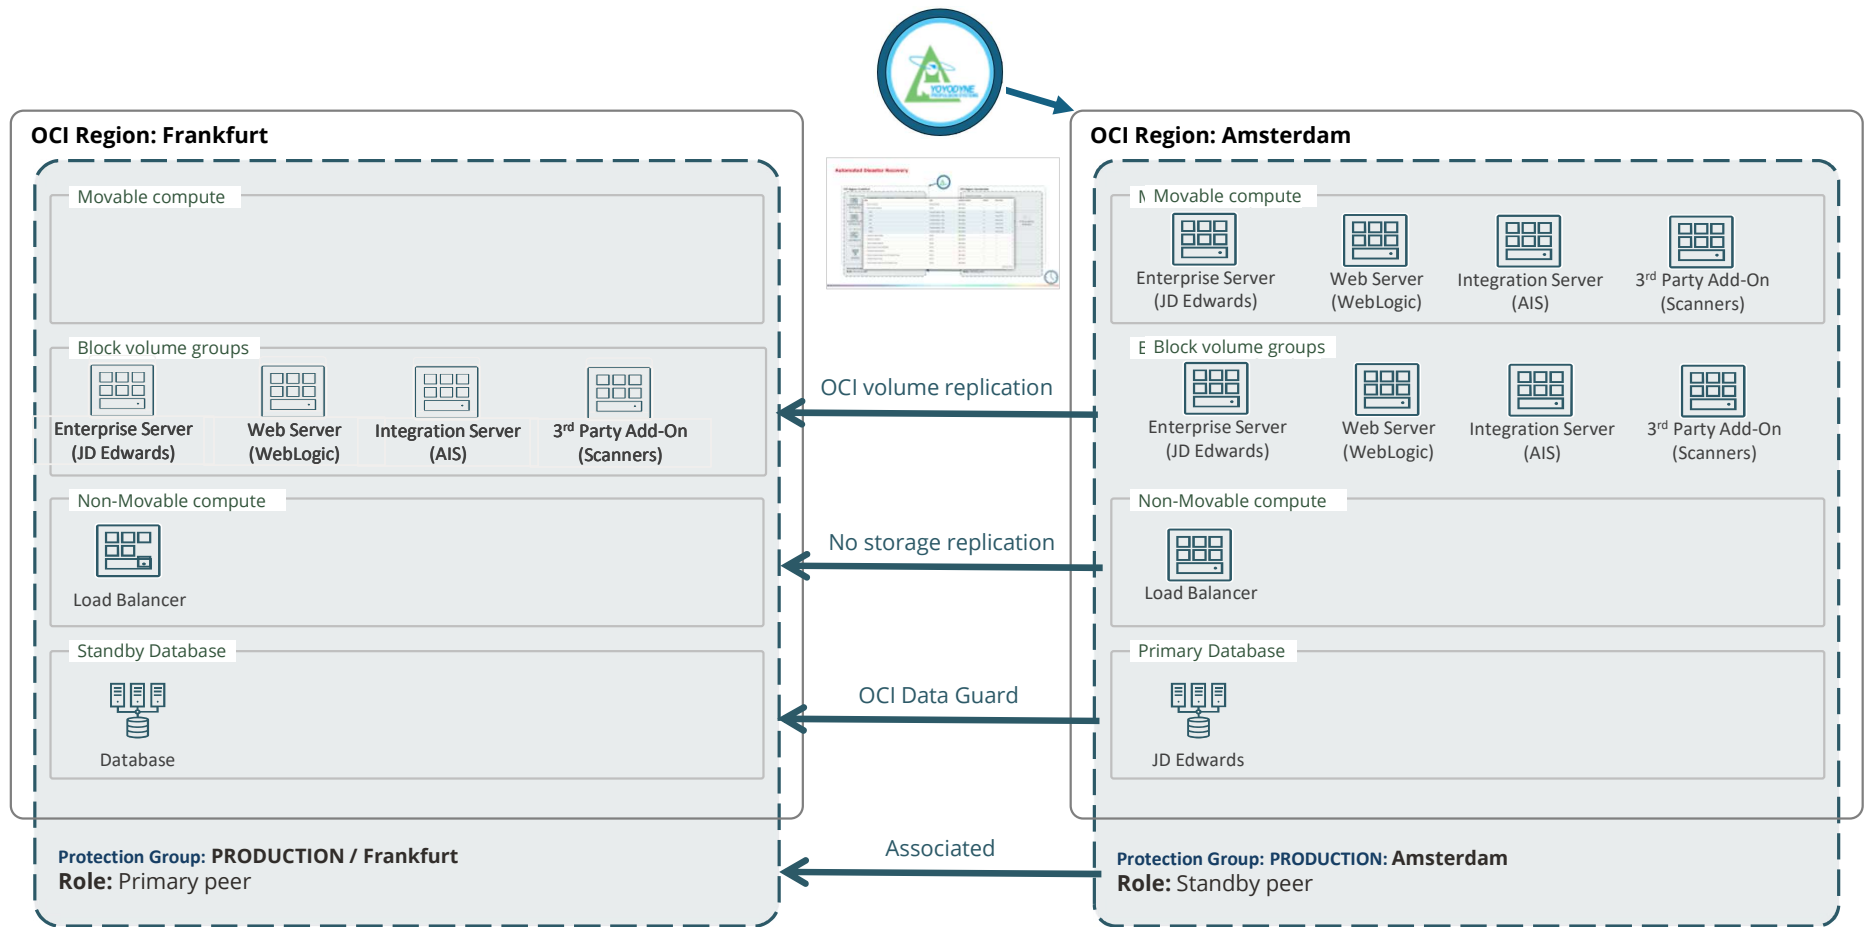

\* For illustrative purposes only. OCI customers can choose from any of the Oracle Cloud Regions.

<https://www.oracle.com/uk/cloud/public-cloud-regions/>

# WE'VE UPGRADED

WE'RE ON CLOUD – NOW WHAT?

**JD EDWARDS / PAAS / SAAS EXTENSION STRATEGY**

## EXAMPLE 1 | JD Edwards TIME ENTRY APPLICATION

[Demo](#)

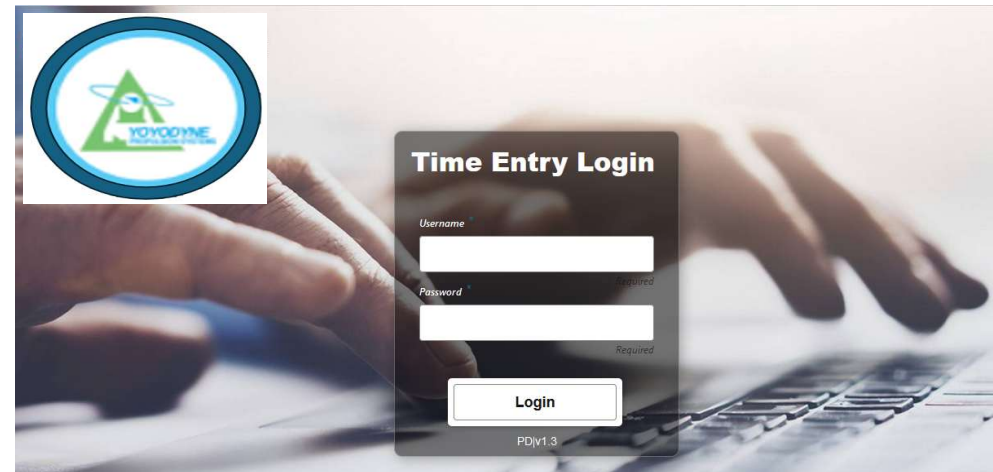

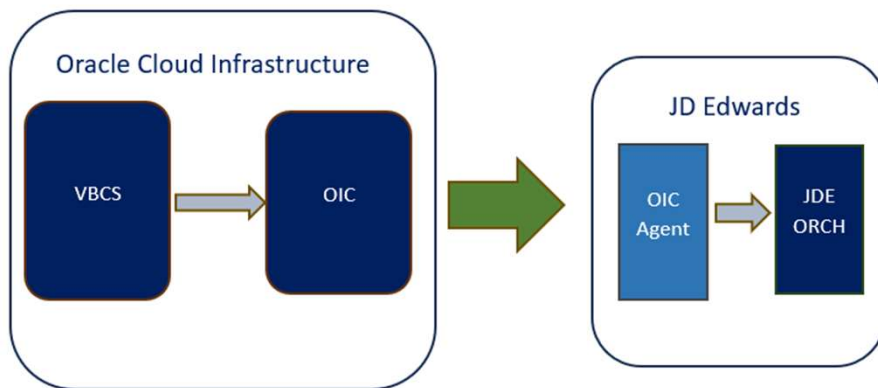

### Objective

- Provide employees with an efficient user-friendly tool to record and track the time they spend on assigned projects and tasks. This application enables accurate time tracking, enhances accountability, and supports project management by offering clear insights into time allocation and productivity. Fully integrated to the **JDE Service Management Module**.

### Key Technologies

- Built with Oracle VBCS (Visual Builder Cloud Service) for a user-friendly interface, Oracle Integration Cloud (OIC) for seamless integration, and connected to Oracle JD Edwards (JDE) using JDE Orchestrator for real-time data synchronization.

## Combining Native JDE & Cloud Services to Deliver an “out of the box” Adaptor for Fusion Applications

---

### Connecting JDE with SaaS – Supply Chain Planning

#### SCP Cloud

Quarterly innovation  
Integration maintained by Redfaire

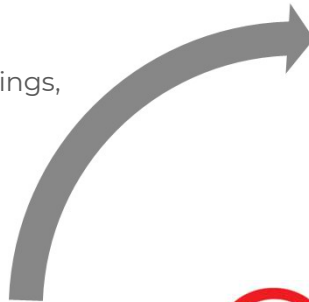

#### Reference data & Supply chain execution (60+ templates)

Business Units, Locations, Items, Item Costs,  
Forecasts, Sales Orders, Bills of Material, Routings,  
Resources, On hand inventory...

#### JDE

Master data management

#### Recommendations

Purchase Order Suggestions, Work Order Suggestions,  
Transfer Order Suggestions

# Integration Strategy

## OIC - Cloud Integration Platform

- ✔ Point of Sale Integration ( Shopify e-commerce platform)
- ✔ Salesforce to JDE Integration
- ✔ Fusion Applications to JDE ( SCP etc.. )
- ✔ Oracle PaaS/SaaS for JDE Extension Strategy
  - ✔ Mobile Expense Management
  - ✔ Timesheet App
- ✔ Multiple integration options including:
  - ✔ Event-based – Real-Time
  - ✔ Scheduled/Streaming
  - ✔ File-based - Batch
- ✔ Exception Handling / Integration Notification
- ✔ Non-JDE Integrations: Zendesk to Jira Integration

## OIC ADAPTERS AND RECIPES

Prebuilt [adapters](#) and [recipes](#) for all your cloud, on-premises, and custom business systems

Demo

# Oracle Digital Assistant - AI Services

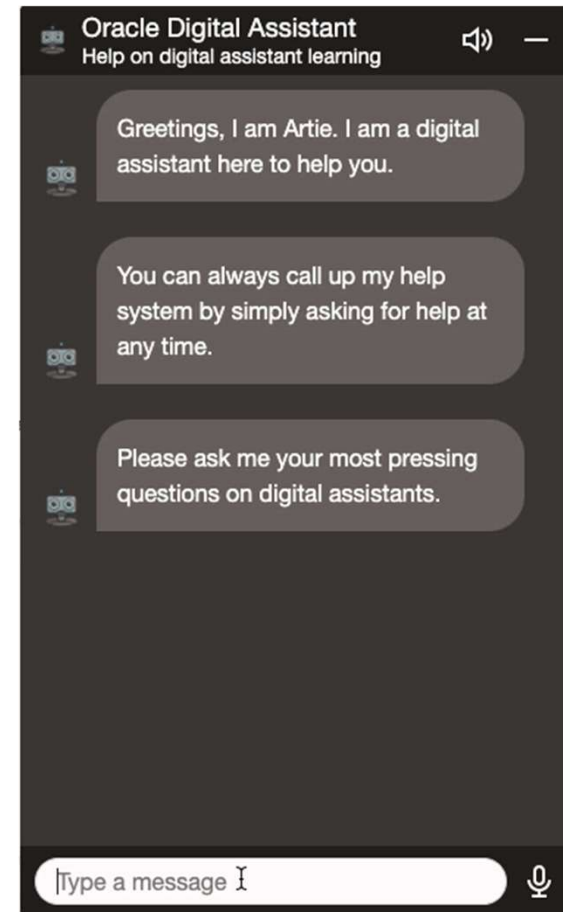

## Oracle Digital Assistant

Add a **Conversational UI** with voice and speech chatbots

- **Machine Learning** OOTB
- **Draw** your conversational flows
- **Backend connectivity** built-in
- **Modalities** such as WhatsApp, FB, SMT, etc.
- **State machine** remembers context

### Features:

- Conversational Artificial Intelligence
  - ✓ **Machine Learning Capabilities**, Natural Language Understanding  
Defined document File Location
- Integration with Enterprise Applications
  - ✓ **Chatbot Architecture Framework**
- Advanced Design Tools
  - ✓ **Conversational Designer**
- Secure and Scalable
  - ✓ **Integrated Authentication**, Multichannel Support

## EXAMPLE 5 | Generative A.I Assistant

[Demo](#)

### YYD AI Assistant

The screenshot displays the REDFAIRE Time Entry (PY928)v1.3 application. The interface includes a top navigation bar with the REDFAIRE logo, a search icon, a date selector (10/03/2025), and a user profile (NASSAR SAMEH). Below the navigation bar, there are tabs for 'Day Hours', 'Week Hours', and 'Actual Hours'. The main content area shows a calendar view for the week of 09-03-2025 to 15-03-2025. A modal window titled 'How can I help you?' is open, featuring a circular logo with a green triangle and the text 'YYD AI ASSISTANT'. The modal contains a 'Select Scope' dropdown menu with 'Generic Chat' selected. Below the dropdown is a list of options: 'Generic Chat', 'Redfaire Policies', 'JDE Training Assistant', 'Redfaire Events', and 'Resource Utilization'. A 'Go' button is located to the right of the list. At the bottom of the modal are 'Clear' and 'Close' buttons.
